

**Global
Foundation
For Children
With Hearing Loss**

Dear Friends,

Our team of 13 professionals is just back from Vietnam where they launched our **multi-year teacher training program** in collaboration with Thuan An Center in South Vietnam - a program that will positively impact the education of over **850 children with hearing loss**.

This summer, our team mentored **95 teachers** and **25 families** from **35 deaf schools** about how to help infants and young children who are deaf and hard of hearing cultivate listening and spoken language.

It was personally very gratifying to watch the workshop participants broaden their knowledge over the course of the month-long training. It was wonderful to see the beaming faces and sense of empowerment that emanated from family members as they learned and absorbed new language concepts and techniques to help their children.

Our team of professionals must be commended for their ability to creatively share their expertise in ways that were actionable and relevant to the Vietnamese culture and everyday lives of the participants. They made a real and lasting difference and I couldn't be more proud of them.

If you had the chance to follow our **blog**, you'll recall from the entry "**[A Perfect Storm on a Hollywood Kind of Day](#)**" that we were producing a **video about our experience**. Well, I am very pleased to share the final result with you....and want to acknowledge **Vincent Mourou** for his outstanding efforts in capturing the essence of our program. Thank you Vincent! Please **[click this link to watch the video](#)** on our website...I hope you enjoy the show!

Our teacher training program may have wrapped up, but we're already laying plans for the **Next Big Thing...**

First, a Mobile Mission in January 2011 to visit a sub-set of the 35 schools participating in our program. We'll be coaching teachers in their own classrooms to reinforce learning gained this summer. We'll also be providing audiology training and support to children. We are also already hard at work planning for next summer's **Teacher Training Program** at Thuan An Center.

If you are a trained professional in pediatric audiology, speech pathology, auditory-verbal education, and/or early intervention and are interested in lending your expertise internationally...please email us at info@childrenwithhearingloss.org for more details on how you can get involved.

Thank you for all your support...we invite you to follow our news on [Facebook](#) and on our [Website](#). We look forward to sharing future adventures ahead with you!

Warm regards,

Paige Stringer
